WIRELESS PRINT SERVER 1000g

Wireless Print Server

Share your printer among all the users of your network. Connect your USB printer to the Wireless Print Server 1000g and it will be immediately available for printing through your wireless LAN. No need any more to reserve a dedicated computer to act as print server. And thanks to its full MFP support you will also be able to use it to connect a MultiFunction Printer and use remotely its scanner or FAX functions.

Easy Installation and Configuration
Topcom's easy-to-use Windows installation wizard allows for quick installation and setup. The device can also be conveniently configured from any network client that supports web-browsing.

Bidirectional and Multifunction Printer (MFP) support
Connect your advanced USB printing device and use it remotely with no cables. Unlike other print servers, scanner and FAX functions are also supported.

Provide Complete Printing Methods
The print server provides LPR, IPP, SMB/TCP, Raw Printing and Unix Logical Printer printing methods. You can choose the best printing method according to your environment.

Supports Major Operating Systems
It is compatible with any operating system. MFP support is limited to Windows 2000 & XP.

Specifications
- Compatible with Wireless LAN IEEE 802.11g&b (up to 54Mbps)
- 1 Ethernet Port 10/100(Auto-MDI/MDI-X)
- 1 Printer Port USB 2.0
- 3 LEDs (LAN, WLAN, Status)
- 1 Reset button
- Antenna : External 2dBi Dipole Antenna
- RF Output Power : 16dBm-18dBm
- External Power Supply: 5V DC, 2A
- Working temperature 0~55oC
- Humidity 10~90% (Non-Condensing)
- Certification CE, RoHS compliancy
